

Hi, my name is Hunter Barnes and I'm a concerned customer from Georgia.

I'm contacting to express my disapproval that the FCC is trying to kill net neutrality and the strong Title II oversight of the Internet Service Providers. Preserving an open internet is crucial for fair and equal access to the resources and information available on it.

Net neutrality is extremely important to me as a college student because I need access to lots of websites without having to pay for specific ones. People can't afford to have to pick and choose and it's unethical.

Thank you for your time and attention.
